

SPECIFICATION

Product Name: Freund's Adjuvant, Incomplete

Description

- Other Notes** Each mL contains 0.85 mL paraffin oil and 0.15 mL mannide monooleate.
- Specificity** Freund's Adjuvants may be used to produce water-in-oil emulsions of immunogens. Antigens in water-in-oil emulsions stimulate high and long-lasting antibody responses which can be attributed to the slow release of antigen.
- Application** Lacks the mycobacteria found in Complete Freund's Adjuvant so it minimizes the side-effects. For this reason, Incomplete Freund's Adjuvant is used for the boost injections.

Properties

- form** liquid
- color** clear amber
- storage temp.** 2-8°C

Safety

WGK Germany 3
